

#Walk4Water2021

# Walk for Water Scavenger Card

1. How many days can someone survive without water?
2. How far does the average Ethiopian have to walk to get access to water?
3. How many gallons of water does the average African use each day?
4. On average, how heavy are the jugs of water women have to carry?
5. Bonus question: What are you interested to learn more about Ethiopia?

Thank you for participating and supporting Corvallis Sister Cities Association - We are grateful to have you!
